The 'Pirate Semmes

The complaints of the escaped prisoner Semmes that Captain Winslow fired into his ship after a white flag had been displayed—and while he was endeavoring to escape with his pirate horde by running the *Alabama* ashore, exhibits the true nature of the man more correctly than even did his bombastic bearing when having to deal with defenceless and plundered merchant sailors There has no single instance been given of his bravery True, under cover of a dark and boisterous night, when the character of his vessel could not be made out, and when by a cowardly lie he had thrown his antagonist off his guard, he did have the nerve to fire into and sink an armed but everyway inferior wooden vessel When the U S gunboat *Hatteras* hailed and demanded to know what ship that was, Semmes replied that it was "Her Majesty's ship *Spitfire*." A boat was no sooner lowered to board the representative of a friendly nation, than a broadside from the *Alabama* sunk the *Hatteras* with all on board, the pirate steamed away, and left the crew of a little open boat upon a wild sea to make the land or perish as they might This pink of chivalry now complains of Capt. Winslow firing into his vessel while it was still trying to get away But Beelzebub is true to his own, and his allied employers by whom he was rescued will doubtless furnish him another ship and crew

OUTRAGE TO THE AMERICAN FLAG.—We are informed by Gov Gibbs that some two weeks since a young man named Gantt, residing in Yamhill county, proceeded to the family residence of Acting Governor Daniels, of Idaho Territory, and tore down and destroyed the Stars and Stripes which were flying from a staff on the premises Information was at once forwarded to Gov Daniels, who in turn notified Gen Alvord and Gov Gibbs of the outrage Lieut Davidson, commanding at Fort Yamhill, was ordered by Gen Alvord to enquire into the matter, and if it was found that an insult to the flag was intended, to make the arrest Mr Gantt was arrested on Monday last, taken to the Fort, and placed in charge of a sergeant He soon made his escape, however, departing on horseback, since which time he has not been heard from. The young man was married between the commission of the offense and his arrest. His parents, with whom he previously resided, are said to be loyal, and deeply grieved at this reprehensible act of their wayward son It is to be hoped that the act was prompted rather by a personal feeling against the parties owning the flag, than against his country.

CAPT CURREY APPROACHING CANYON CITY The following is an extract from a letter received at the headquarters of General Alvord from Capt Geo B. Curry, 1st Oregon Cavalry. His command and that of Capt. Drake had united at the camp from which he writes His command had marched from Jordan's creek, on the Owyhee Several scouting parties had been sent out He passed through the valley in which Lieut Waymire had the fight on the 7th March, very little signs of Indians was found in all that country. He left on the 3d inst with the whole command for Canyon City He will now be able, no doubt, to render efficient service, having with him a number of Indian scouts and guides He has doubtless reached Canyon City by this date His letter shows commendable zeal to protect the frontier from the ravages

HEADQUARTERS EXPEDITION, CAMP No 46,
N E of Harney Lake, July 2 1864

SIR * * * I was joined at this place by Captain Drake and his command I found it in good condition and one hundred strong With the two commands I will start in the morning direct towards Canyon City, intending to clear the region of John Days river of Indians * * * Captain Berry with his infantry remain at the Depot

I can but regret I did not reach this vicinity sooner, but as you have already been advised of my reasons for not moving up the Malheur river, I will not now report. Since leaving Fort Walla Walla I have traveled eight hundred and thirteen miles making forty six camps This does not include the scouts made by my officers I would now gladly give my men and animals some rest but do not deem it advisable until the murderers of Lieutenant Watson and the plunderers of our people have been chastised Very respectfully your obedient s't,

Interesting Letter from the Mines

We have been permitted to make the following from a private letter received yesterday by a gentleman in this city

RATTLESNAKE CREEK
Harney Lake Valley, Oregon Terr 2 1864

FRIEND W I take up a miserable piece of poor letter paper to let you know that I am alive and not dead but that is about all I can say more than that our prospecting party have been kicked off by the Snakes and driven back from you that which is not the case by any means yet to have been in the Malheur Valley Dalles where we could get a mail once in a month—the Indians were on the right bank of the river all the time coming down the ridges in front of us and firing upon us whenever they thought they could hit one of us One ball passed between my body and right arm and struck the stock of my gun which was in front of me and glanced off the saddle I then turned my horse and passed between my body and right arm while my thumb was upon the cock and pulled the trigger taking it out of the sling and just grazed my hand taking a very little of the hide I sent the ball through the body of the Indian who fired the shot and he fell dead in the center of a circle of the Indians at the back part of the group in front of which I was standing when I fired I then turned my horse and galloped off the battle ground and in passing I received a ball through the right arm above the elbow which broke the bone and came out on the inside of the arm the second was my own and was shot at the same time and came through the right hip—the ball passing entirely through—it like the other through the right arm—at the time of receiving the ghastly glance of both the Indians whom I wounded there were three in the group I was coming on the run and as soon as my wound will admit of my riding again with ease, I shall return to the spot where the Indians fired upon me and resume my examination of the country until I am satisfied the place, when found, will be nearer Jacksonville and Yreka than Dallas or Canyon City The last party of ten men who abandoned us have come into this camp, and reported having found good diggings they go to Canyon City and will then return, they found the gold near the trail made by our party of four I am weak and cannot write much more * *

* After I got out of the bushes I begged the others to wait until I could shoot one of the redskins but they would not I rode eight miles before dressing my wounds bleeding all the time after dressing them rode fifteen miles further before encamping for the night, suffering tortures all the while The Indians had once before fired upon the party when it numbered fourteen, but without doing any harm, they were of another tribe south of Harney Lake We were continually crossing Indian trails after crossing the Blue Mountains, and when our little party of four started out alone we were almost continually in sight of Indian signal fires and at one time were obliged to change our course for fear of utter annihilation * * *

Mr Swan and myself are getting along pretty well since we met with the military yesterday but to morrow we move with them towards Canyon City Lt Waymire is here and is spoken of as a brave and promising young officer

My respects to all friends Yours, &c,
R H. BRUNEY

SENSATION GOLD REPORTS.—We give below a communication touching rumors of the existence of gold in paying quantities on Lewis river The writer's description of the fort le sections of country, may be of service to those who desire to secure good farms near the Columbia

PORTLAND, July 13, 1864.

EDITOR OREGONIAN

Having heard many reports respecting four or five dollar diggings bowing on Lewis Creek in Washington Territory, about five weeks since I started on a prospecting tour in order to prove the truth of the statements

I went up the east fork about thirty miles from its junction—then on Cedar Creek near its head and also, for eighteen miles from its mouth—also, on the north fork about fifteen miles above Telaiche Prairie, then around the Tum Tum Mountains and the foot of Mount St Helens but only specks of one to four in number in a pan could be got, and sincerely, plainly and honestly speaking no man can make fifty cents per day by gold washing, for there is neither gold or dirt to wash—but as to farming the Telaiche Prairie has about twenty claims (land claims) of good black sandy loam, eight feet deep, produces thirty to fifty bushels of wheat per acre Such also, is Yao Dul Prairie and the East Fork Prairie Strong's war Prairie and several other prairies but no settlers except one (Tom Doubister) on Telaiche He is a free hearted honest Orkney man, and his nearest neighbor is one Mr Gardner who with his wife and family, are as good, honest, kind and truthful folks as man wants who resides about 15 miles below Telaiche Prairie, on the north fork of Lewis river

Although gold is scarce, yet the prairies and the upper bottoms of Lewis river are good prolific producing land, and only requires more settlers in there to create on Lewis river a place that might flourish equally to any in Oregon or Washington, but there *is not gold enough on Lewis river to even pay for prospecting*, so please disabuse the public mind by inserting this truth

Yours truthfully &c,
G M EVANS

A BRITISH STEAMER FOR THE PUGET SOUND TRADE.—The British steamboat *Alexandra*, lately built at Victoria, Vancouver Island, has been put on the line between Olympia, W T, and Victoria touching at all the way ports She is the largest boat ever built at Victoria, being, we are informed, over 170 feet in length, with a corresponding breadth of beam and depth of hold Her carrying capacity for cattle will greatly exceed any boat used for that purpose in those waters, and she will no doubt become a favorite with cattle drovers from that port Her speed is said to be good, she having accomplished the distance from Olympia to Steilacoom, 25 miles, recently, in one hour and thirty five minutes Her passenger accommodations are extensive and good She will make weekly trips, leaving Victoria on Saturday morning, and Olympia on Sunday morning Our neutral cousins are taking advantage of opportunities afforded by the pirate element of the rebellion to gather up what loose things the Yankees have to pay for freights and passage We wish the new boat all success under an American built vessel can be found to take her place

INDIAN FIGHT.—We learn from Maj Glenn, just returned from Fort Klamath that W J Allen had just arrived at the Fort stating that on the 22d and 23d of June the Snake Indians attacked John Richardson's train consisting of fifteen men and three families between Silver Lake and the head waters of the Des Chutes Capt Jo Lewis shot from under one of the soldiers at Fort Creek Bird a volunteer from Sacramento valley was shot through the arm and head the ball going into his breast

Richardson was compelled to throw away 3 500 pounds flour and lose 7 head of cattle It was supposed to be a small party of not more than 10 or fifteen Indians The attack was made in the morning and about 75 men from the fort Fort Klamath The train consisted of 6 wagons 15 men 5 women and several children The wagons with two men with four of the women and men in women arrived at Fort Klamath before Maj Glenn left from whom he learned the particulars The wounded man was immediately placed in the hospital and the care of Surgeon Kittredge

Semmes' Report of his Fight with the Kearsarge

WASHINGTON July 9.—Official dispatches from Gen Wallace state that a battle took place on the 9th as if his command and the rebels at Monocacy on day commencing at 9 o'clock continuing five hours Our forces overpowered by superior numbers were forced to retreat in disorder Brig Gen Tyler was taken prisoner The enemy's force number at least 25,000 Our troops behaved well suffered severe loss Wallace is retreating toward Baltimore (Signed) STANTON

BALTIMORE July 10.—Wallace has been gradually falling back since yesterday, the rebels following The city was started this morning at six o'clock by the ringing of bells which were employed the day to find Governor's proclamations calling the citizens to organize in defence An intense excitement was at once produced Companies are forming at every street corner The proclamation declares the danger menacing the city imminent and requires all to report in person made immediately Gen S S Lockwood has tendered himself to take command of the civil forces thus raised, and has been assigned to the command

Later accounts from the front say our forces have fallen back in the vicinity of Monocacy Junction having burned the turnpike bridge over the Monocacy

BALTIMORE, 10, 1 M.—The Northern Central Railroad has been cut near Cockeysville bridge Ashland Works are reported burned The rebel cavalry is estimated at about 150 and are said to have crossed the Northern Central road above Cockeysville this morning going towards the Philadelphia Railroad It is supposed the force guarding the road is sufficiently strong to drive the rebels off Many rumors are afloat this afternoon, but the confidence in our ability to defend the city is growing stronger There is now less excitement It is believed that troops are in such a position by this time as to effectually protect communication with Washington As a matter of precaution all valuable records, of banks and other institutions have been placed on board the steamers in the harbor for safety

SIX O'CLOCK P M.—Gen Sigel's train arrived here to day in charge of a large detachment of cavalry and infantry Officers who were in battle yesterday say the fighting was very desperate and that the rebel loss was fully as large as ours Our loss, in prisoners, is about 1,000 We have not made an estimate of the killed and wounded yet

9 P M.—The excitement is intense this evening Wallace still continues to fall back toward the city Parties with drum and fife are constantly moving through the city to man the breastworks Rebel scouts have been seen 15 miles from the city At last accounts Wallace was within 24 miles of the city and falling back, with fresh troops guarding his rear His artillery is reported to have been destroyed

Intelligence has reached here that a portion of Hunter's force recaptured Martinsburg, taking about 1000 prisoners all the stores were captured, there being much plunder collected at that place by the rebels.

PHILADELPHIA, July 10.—A special from Chambersburg to-day says that Gen Couch's cavalry advanced and entered Hagerstown yesterday, capturing about 200 rebels who were engaged in plundering Quite a number of buildings were burned The rebels were, if possible, more severe upon Secessionists than Unionists levying contributions everywhere In consequence of this move, McCausland's rebel brigade retreated along the Williamsport and Sharpsburg road

Heavy firing was heard in the direction of Harper's Ferry, indicating that a brisk engagement was going on between Sigel's forces and a portion of the raiders

NEW YORK, July 11.—A Washington dispatch received last night, says

Dissolve all secession rumors as to danger and terror in Washington The Government is wide awake and has been so for some days Have been sending reinforcements to Baltimore and elsewhere most abundantly Preparations for the defense of the National Capital are most ample Large reinforcements reached Baltimore this morning.

Hunter is supposed to have arrived at Harper's Ferry last night and formed a junction with Howe's forces

No apprehension of injury to the railroads north is felt

Gen Gilmore arrived here this morning and will immediately assigned to active command in the field

A party of 400 or 500 rebels dashed into Downeytown yesterday, after stealing all the cattle and horses they could find they left in the direction of Frederick Before doing so they sent to the Virginia side all the plunder

Persons from the upper fords report that the rebels are conveying large numbers of horses cattle sheep and hogs stolen from farmers along the river across into Virginia every fording being held by a small rebel force It is estimated that they have already carried off several thousand cattle from 5000 to 10 000 horses They plunder secessionists and Unionists indiscriminately

BALTIMORE, July 11.—The rebel cavalry burned the residence of Gov Bradford this morning, four miles from the city A squad of rebels came to his house and ordered out his family while they permitted to take a few valuables and then fired it The torch was then put to the city residence of the Governor upon the Philadelphia road

The Sun's special dispatch dated moonlight 11th says that in consequence of the burning of both the Gunpowder common train between Washington and Harrisburg Monroe nothing has been received from Grant to day

John Cessna of Pennsylvania returned yesterday from a visit to Grant's Headquarters where he had several interviews with Grant who says he don't attach much importance to the rebel raid in the belief both we that Lee would detach a considerable force from the front of the Union lines

The *Herald's* special last night says from the latest information at hand it appears that Breckinridge crossed Harper's Ferry and advanced leisurely west of South Mountain with a view of learning our forces in that direction, while another body of the army crossed at Edwards Ferry in order to flank and to give our column and a strong effective Breckinridge The whole rebel force is united this side of Frederick, and a rencontre is expected to take place in connection with Baltimore

Our cavalry came to day from Leesburg saw no rebel there A few guerrillas are prowling about Loudoun Loyal residents in that vicinity still remain on their farms

NEW YORK, July 11.—A dispatch dated near Petersburg, July 7th says Thereon my were discovered cutting a fort in front of our left centre A battery of 2 pounders opened on them from the lines of the 18th Corps which soon silenced the rebel artillerists at that point All day our guns fell with effect upon their line and were answered by rebel artillery Most of their shots fell short

Immediately after the above report the enemy's shot soon began to fall on our left which soon killing and disabling a number from different parts of the ship Ericsson's steel shield then fitting did its little execution except was hit by solid shot After an hour and forty minutes the ship was in a fearful condition, shell from the enemy having exploded in our sides between decks, pouring large apertures through which the water rushed at a great rapidity My hopes were to be able to reach the coast for which purpose I gave the ship all steam and set such fore and aft sails as were available The ship filled so rapidly that he resolved to make such progress as the fires were extinguished and we were evidently sinking I now hauled down my flag to prevent the further loss of life and dispatched a boat to inform the enemy I consider myself a prisoner of war

Semmes says that the *Kearsarge* fired five times after he struck his colors Speaking of the comparative strength of the two vessels he says that the *Kearsarge* was heavier than the *Alabama* in ship lighters and crew The former was armored by double rows of chains along its gangway and covered with the sides of the *Alabama* only 2 inches thick

Le Ere says that the *Kearsarge* returning to Cherbourg on Sunday afternoon landed sixty five of the crew of the *Alabama* fifteen of whom were wounded

The Paris *Commercial* says that Capt Winslow still claims Semmes as his prisoner and will write to him to deliver himself up making it a personal question between officers The men were released on parole never to fight against the United States Winslow did fire after the white flag had been hoisted owing to its not being seen

FURTHER INTELLIGENCE.

15,000 Rebels attack the Northern Fortifications of Washington.

WASHINGTON, July 7.—The President in accordance with the resolution of Congress, has issued his proclamation appointing the first Thursday in August as a day of humiliation and prayer for the people of the United States commending them to implore the compassion and forgiveness of Almighty God that the rebels may lay down their arms and that the effusion of blood may be stopped

The telegraph between Baltimore and Washington is cut and most of the news we receive is flying rumors

HAVRE DE GRACE July 12.—Semi official intelligence was received here, that yesterday afternoon a fight was progressing seven miles from Washington on the Seventh Street road near the Crystal Springs, that one thousand rebel cavalry were there

Philadelphia despatches of the 12th state that rumors prevail of an attack by 15,000 rebels on the northern fortifications of Washington, but they cannot be traced to any definite source There is much excitement here Business is nearly suspended Recruiting is very brisk A large number of men are ready to start for Baltimore and Washington to night

PHILADELPHIA, July 12.—The *Telegraph* of this city has the following Fighting has been going on near Washington since morning The rebels are approaching the defenses on the northern side of the city in strong force

It is reported that our forces are now in possession of Frederick and that a part of the rebels had recrossed the Potomac at Maryland Heights A large number of sailors have been sent to Baltimore

HAVRE DE GRACE July 12.—The rebels have destroyed 150 feet of the Gunpowder Bridge, and 500 feet more is partially destroyed

INDIANAPOLIS, July 12.—The Democratic State Convention to day nominated J E McDonald as Governor All the Democratic State officers were renominated

The rebels at Frederick are estimated at 18 000

THE "RAID" ON PUB DOCS.—Quite an excitement was created in town last evening, by reports that the public documents, which for a long time have been accumulating in the public hall of the Post Office were being "gobbled up" Men with their arms outstretched, in support of piled forms, printed at Government expense and franked by divers and sundry individuals at Washington, could be seen rushing toward their several places of business, or abodes and a vast crowd at the Post Office at a late hour A lessee the popular credence given to the unusual report As near as we could learn, it is the custom to deposit the franked Pub Docs outside the Post Office door, for any one to select from, and recently a few arrived without any directions on the envelopes The large pile which has lain there for several weeks addressed to different parties will no longer be an eye sore to daily visitors, if we may judge from the shreds of wrapping paper with which the floors were covered, before the crowd dispersed. Some of these documents are very valuable, as matters of reference and we would return thanks for our share had there been any directed to, and received by us.

A MIXED CASE AND A HARD ONE.—Upon the affidavit and complaint of Jacob Cline, Thomas Lee of this city, was arrested yesterday morning and brought before Justice Terry to answer to the charge of having broken into Cline and Sands' house the evening before, carrying out certain valuables and furniture and burning the same in a fire, while the occupants of said dwelling were at Dan Rice's Circus. The examination was set for three o'clock in the afternoon when it was argued by J H Mitchell, Esq for the prosecution, and D Fredericks, Esq for the defense A clear case of vandalism was proven, but portions of the evidence were conflicting, and all based upon circumstances that the prisoner was released. These circumstances connected with the case it may have based a suspicion upon Mr Lee which have grown out of domestic difficulties, making a really a hard case in the drama of life The ruins are an extravagant that we prefer trusting to time and the Courts to have the truth revealed

THE CIRCUS.—A large crowd was in attendance at the Circus last evening to witness the performances, which were rather creditable from this remote [illegible] days of Circuses were and it could not be expected with even Calliopes, and [illegible] the present day, for $1 a ticket. All would [illegible] expensive amusements [illegible] acting in the present [illegible] country can afford, and we [illegible] dollar to see it are satisfied. The [illegible] nances will be given for the next [illegible] commencing at two o'clock [illegible] the last exhibit on will be [illegible]

THE "RAID ON PUB DOCS"—Quite an excitement was created in town last evening, by reports that the public documents, which for a long time have been accumulating in the public hall of the Post Office were being "gobbled up." Men with their arms outstretched in support of their statements, printed at Government expense and franked by divers and sundry individuals at Washington could be seen rushing toward their several places of business, or abodes, and a vast crowd at the Post Office at a late hour, attested the unpopular precedence given to the unusual report. As near as we can learn, it is the custom to deposit the franked Pub Documents outside the Post Office door for any one to select from and recently a few are said to have been drawn on the envelopes. The large pile which has lain there for several weeks addressed to different parties will no longer be an eye sore to daily visitors, if we may judge from the share is of wrapping paper with which the floors were covered before the crowd dispersed. Some of these documents are very valuable as matters of reference and we would return thanks for our share had there been any directed to, and received by us.

A MIXED CASE AND A HARD ONE.—Upon the affidavit and complaint of Jacob Cline, Thomas Lee of this city, was arrested yesterday morning and brought before Justice Gray to answer to the charge of having broken into complainant's house the evening before, carrying out certain valuables and furniture, and burning the same, in bon fire, which the occupants of the dwelling were at Dan Rice's Circus. The examination was set for three o'clock in the afternoon, when it was argued by J. H. Mitchell Esq., for the prosecution, and D. Fredericks Esq., for the defense. A clear case of vandalism was proven but portions of the evidence were conflicting and all based so much upon circumstances that the prisoner was released. There are matters connected with the case that may have based a suspicion upon Mr. Lee which have grown out of domestic difficulties, making really a hard case in the drama of life. The rumors are so extravagant that we prefer not to time and the Courts to have the truth revealed.

THE CIRCUS.—A large crowd was in attendance at the Circus last evening to witness the performances which were rather creditable for this remote region of country. The palmy days of Circuses were years ago, to the Last, and it could not be expected that 40 horse chariots, with steam Calliopes, and the like, would visit Oregon at the present day, afford a fund of amusement for $1 a ticket. It would be a losing operation and expensive amusement, to the operators. The acting in the present Circus is as good as the country can afford, and we think all who invested a dollar to see it are satisfied. This afternoon a performance will be given for the accommodation of families commencing at two o'clock and this evening the last exhibition will be given in Portland.

RESTORED TO ITS PARENTS.—Our readers will remember an allusion to the Oregonian, some four weeks since, to a singular case of abduction, in which brief particulars were given of a little girl that had been taken from the vicinity of Vancouver by a man named Davis and kept from her home for six years. Yesterday we were informed that the parents had secured the child, through the intelligence sought to be conveyed. It was a case in real life. The father resides at present near Shoalwater Bay and the little daughter may yet live to gladden his heart.

A NEW WAY TO CARRY PAPERS.—A portion of our city subscribers are now served by one of the carriers on horse back. This enables remote readers ample opportunity to peruse the paper at breakfast time, and saves a great deal of double quick walking. A horse used in this branch of service has went before but a few times, and yet he appears to understand where to turn and where to halt, as if by instinct. Mr. Southworth the owner, thinks the route will be able to travel the route voluntarily, in the course of time.

"SORING" FOR THE SANITARY CAUSE.—The sons of M. Mansfield, who came in possession of the Sanitary Rooster, recently sold at auction in this city for the benefit of the Commission, have been industriously circulating a subscription paper selling tickets for a raffle of the same rooster, wishing to donate more towards aiding the soldiers. They met with poor success, and raised but about $26 when the lowest one, aged about eight years complained to his father that there were more secesh in the crowd than anybody supposed. The little fellows have done their best—and the account will be passed to our credit.

A PONY RACE.—The usual monotony in the sports of this city was broken yesterday, by the introduction of a "square" race, between two pony specimens of the horse which came off on the bottom north of the Gas Works the usual resort for such games. We did not visit the course, but left the matter in the hands of a policeman to report. As we hear nothing further about it, and no cases appearing on the Recorder's docket for this morning, we presume it must have been a very quiet affair.

AN OREGON SANITARY FAIR.—The Sanitary Fair which was to have been held in Portland, during the coming Fall, has been transferred to Salem, and will commence on the 27th of September next. We trust there will be a generous outpouring of the wealth and products of Oregon on the occasion that will show our true sympathy for the sick and wounded defenders of the Union.

ISSANS ASYLUM REPORT.—The report of the visiting physicians, and an accompanying report from Dr. Hawthorne & Lobyes, shows that two State patients were admitted during the month of June, one had died, and on the 1st inst. 46 were in the Asylum. Five private patients were also in the Asylum making the whole number 51, including all from Washington Territory.

STATE PENITENTIARY MATTERS.—The report of the Warden for the month of June just passed, is not materially different in the findings from the previous report. The escape of three convicts and the capture of one of them, is recorded. One discharge, and one pardon has reduced the number to twenty-one. During the month one convict received sixteen lashes, for disobedience.

FINANCES OF THE COUNTY.—The annual exhibit of the financial affairs of Multnomah County, have been prepared for publication by order of the board of County Commissioners, and will appear in full to-morrow morning. A recapitulation of the funds in the treasury show a balance unappropriated of $33,490 70.

THE RESCUE.—The steamer *Rescue* has taken the place of the steamer *Cowlitz*, and with Capt. Olson at the helm is making regular trips between this city and Monticello. On the last trip she brought a large load of hay, of the new crop, besides a large amount of other freight.

WORK RESUMED.—The work at Captain Clinton's ship yard, in East Portland, has been actively resumed, and before many weeks one or two new boats will be launched in that vicinity.

THE UNITED STATES DISTRICT COURT adjourned yesterday morning *sine die*.

"EMBROIDERED ON A SEWING MACHINE?—I was not aware such elegant work could be done in such a manner," remarked one lady to another in our presence lately. She examined the trimming for a charming cloak which adorned its fair owner. Oh, yes was the reply, "it can be done and beautifully, as you perceive but only by one of the machines in use—the Grover & Baker.

Nervous Debility—It is quite common to find in the female sex persons suffering from what are called weaknesses, without any actual organic disease. The constitution is rarely one of weakness, and pain is happily modified by the PERUVIAN SYRUP, which restores the tone of the nervous system by its direct vitalizing influence on the blood.

Dr. Hostetter's Stomach Bitters.—These Bitters are deservedly acknowledged to be a sure preventive and cure for fever and Ague, Flatulence, Heaviness of the Stomach or any other like affection. Their effect upon the system is most miraculous: they give a healthy tone to the whole, relieve all morbid matter and in fact thoroughly cleanse the system of all impurities. In no case has it been known to fail: but on the contrary, new vigor has been found in its use. To those afflicted with any of the above ills of the body, the 'Bitters' are offered as a speedy and certain cure. Try them and form your own opinion.—Sold by all Druggists and dealers every where. je26d&wlm

Periodical Headache—so common in unacclimated and unhealthy countries. Tic Douloureux, that most painful affection of the nerves of the face, are often only attacks of ague in disguise—proceeding from the same noxious influence. Jaundice, Dyspepsia and Diarrhœa, are frequently but disguised forms of Intermittent Fever. Even Rheumatism and Epilepsy often result from the same miasmatic cause. For such Dr. Osgood's India Cholagogue is an unfailing remedy. By striking at the root of these affections it applies with equal certainty, as for the cure of fever and Ague in its simplest forms.

Immediate reference to be had to particular to enquire for *Dr. Osgood's India Cholagogue*. Sold everywhere. Sole Agents for the Pacific Coast,

Coughs and Colds—The sudden changes of our climate are sources of PULMONARY, BRONCHIAL and ASTHMATIC AFFECTIONS. Experience having proved that simple remedies often act speedily when taken in the early stages of the disease, recourse should at once be had to "*Brown's Bronchial Troches*" or Lozenges, for the Cold, Cough, or Irritation of the throat before a slight attack may be effectually warded off. PUBLIC SPEAKERS and SINGERS will find them effectual for clearing and strengthening the voice. Soldiers should have them as they can be carried in the pocket, and taken on occasion requires.

PARSON BROWNLOW'S SPEECH.—During the deliberations of the Baltimore Convention, Parson Brownlow was called to the platform, when he made one of his characteristic speeches

Stevens withdrew his motion to adjourn, and on motion of Parson of New York, the Parson was invited to address the Convention As the Parson made his appearance in the body the House was greeted with deafening applause The Convention and audience rose to their feet, and mingled the waving of hats and handkerchiefs the gallant Parson Brownlow, excused himself from a speech on account of illness, but proceeded to say there was one thing he heard when he came to town and that was that you had some doubts in your minds about the property of admitting the delegation from Tennessee—a State in rebellion I hope you will pause gentlemen before you commit so rash an act as that, and thereby recognize secession We don't recognize it in Tennessee [Applause] We deny that we are out [Applause] We deny that we have been out [Applause] We maintain the minority first voted us out, and then a majority whipped the minority out of the State with bayonets and drove a portion of our men to their ranks, but we are here to participate in your deliberations and tells The delegation that our State sends up to you would scorn to go the Chicago Convention They would decline having anything to do with the late Cleveland Convention [Applause] We are for the Baltimore Convention [Applause] We are for the Convention of the party that are resolved to put down the wicked, this infernal rebellion at all hazards and all costs of money and lives, and our Convention instructed us before we left home to advocate and vote for Abraham Lincoln first, last and all the time [Applause] And the idea I suggest to you, as an inducement not to throw out our delegation, is that we may take it into our hands before the time is over to present a candidate from that State in rebellion for the second office in the gift of the people [Applause] We have a man down there whom it has been my good luck and bad fortune to fight unturingly for the last twenty five years—Johnson [Applause] For the first time, in the Providence of God, three years ago we banded together on the same platform, and we are now fighting the devil, Tom Walker and Jeff Davis, side by side. (Applause)

BURSTING OF THE GREAT WIARD GUN.—The monster gun, whose casting at the Wiard Ordnance Works we described some weeks since, was on Saturday last subjected to so severe a test as to cause its almost total destruction Though of but 15 inches calibre, the gun, from its peculiar pattern, was probably the bulkiest piece of ordnance ever made in this country, being 13 feet in length, over six feet in exterior diameter, and weighing over 46,000 pounds The charge was far greater than any ever before attempted, consisting of 80 pounds of quick burning powder and an elevated shot of 900 pounds weight, the cartridge was 16 inches in diameter by 15½ in length, the ball a solid double shot 15 inches by 24 This is more than three times the service charge. The gun was fired about dusk, and caused an explosion by which many in the city, at the distance of two miles, were much alarmed When the clouds of smoke and gravel had subsided, it was found that the gun had been blown to fragments, one piece of about 15,000 pounds weight being hurled a distance of about 200 feet In view of the immense charge, Mr. Wiard took every precaution to keep the bystanders at a safe distance, and to his caution we may attribute the fact that no one was at all injured, though the flying fragments passed in alarming proximity to many of the spectators Whether the rupture was caused by a defective casting, or was due merely to the heavy charge, we are unable to state.—*Trenton Monitor.*

READING ALOUD IN THE FAMILY.—Books and periodicals should be angels in every household They are urns to bring us the golden fruits of thought and experience from other minds and other lands As the fruits of the trees of the earth's soil are most enjoyed around the family board, so should those that mature upon mental and moral boughs be gathered around by the entire household No home exercise could be more appropriate and pleasing than for one member to read aloud for the benefit of all An author's ideas are energized by the confidence and love of the tender family affections, and every heart is open to the truth like the unfolded rose to receive the gathering dews. The ties of love between parents, and children, and brothers and sisters, are thus cemented yet more, and varied charms and pleasures are constantly open through this medium to make a home a very paradise If parents would introduce this exercise in their families, they would soon see the levity and giddiness that make up the conversation of too many circles giving way to refinement and chaste dignity Read to your children, and encourage them to read to you, instead of reading your papers and books in silence, and in silence laying them away.—*Western Recorder*

A writer says We are often troubled with severe coughs, the results of a cold of long standing, which may turn to consumption and premature death Hard coughs cause sleepless nights, by a constant irritation in the throat, and a strong effort to throw off offending matter from the lungs The remedy I propose has been tried by me, and often recommended to others with good results, which is simply to take into the stomach, before retiring at night, a piece of raw onion, after chewing This esculent, in an uncooked state, is very heating, and tends to collect the waters from the lungs and throat, causing immediate relief to the patient Sliced onion, in a raw state, will collect poison from the air, and also from the human system when taken internally, or externally applied to the arm pits

THE PRINCESS OF WALES.—A correspondent writing from London, says 'strange stories are abroad in relation to the Princess It is currently reported that she has threatened to put herself and followers in mourning, and to abstain from any appearance at Court, if hostilities recommence, and the two greatest ladies in the land being thus at cross purposes, and both playing the mourner, 'levees' and 'drawing rooms' may be at an end before the season is half over *Le beau monde* is frightened, *haut ton* in despair, and tailors, dressemakers and milliners trembling in their shoes Of course, the Prince of Wales sides heartily with his wife, and the majority of statesmen of all parties look toward the rising sun of his future"

The widow of the late Ex President John Tyler has written to President Lincoln complaining that Gen Wild has arrested a slave owner who had been flogging his female chattels, and that the General had him tied, and permitted his women to repay his blows with interest Mrs Tyler is indignant that a Virginia gentleman should have been treated thus.

We have got a vessel in the Navy—the *Pensacola*—that can make more headway with sails than with steam Under steam, her speed is from six to eight knots an hour, under sail, without steam, twelve knots

PRESBYTERY OF OREGON.—The following resolutions were adopted by the Presbytery of Oregon, at its recent meeting in Corvallis

Resolved That the Presbytery fully sustains the action of the General Assembly in all its legislation with respect to the state of our beloved country and that we will give our influence to every measure tending to restore, the government to full vigor and to bring the wicked rebellion which has arisen to condign punishment, and the authors of it to merited punishment

Resolved That we offer our solemn testimony against the system of slavery believing it to be a national corruption and the cause of the rebellion and that its extinction is essential to the permanent peace and prosperity of the Government and that it will be found to be the will of God

Resolved That we rejoice in the benevolent associations viz The Sanitary and Christian Commissions as the true evidence of the confidence in their patriotism and love of our sick and wounded soldiers and cordially commend them to the liberality of the churches and the public

GENERAL DEBILITY,

and all Diseases where Tonic and Alterative Medicine is required

THE PROOFS OF ITS EFFICACY are so numerous in the United States that it would be impossible to publish them all, and it is not reasonable to suppose that all persons who use the Peruvian Syrup will write letters to the Proprietor, but it is safe to recommend it to the attention of the public

From well-known Citizens of Boston

The undersigned having experienced the beneficial effects of the Peruvian Syrup, or have been made acquainted with cases in which we have confidence in recommending it to the afflicted, feel it a duty we owe to suffering humanity to add our testimony to the many others in favor of this truly valuable

Certificate of Dr. Hayes.

It is well known that the medicinal effect of Protoxide of Iron is lost by even a very brief exposure to air, and it is impossible to maintain a solution of Protoxide of Iron without further oxidation, based on deomic principles

In the Peruvian Syrup this desirable point is attained by combination with a Wine Cordial containing citrate and tartrate of Iron Materia Medica

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DISCOVERY of modern chemistry and it is impossible to over estimate its influence as a remedial agent Iodine has been considered the most useful article in Materia Medica and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system It is to act upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS AND GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation it remained almost useless until Dr Henry Anders a physician and chemist of New York after years of patient labor and experiment discovered the chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER

without a solvent This considered impossible by the scientific world is attested by certificates of analysis from Dr J R Chilton of this city and Prof Booth U S Mint, Philadelphia The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals, and its use recommended to practitioners (see American Medical Monthly, July & 1858, page 76.)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms Consumption Cancer Humor, Liver and Kidney Diseases Rheumatism, Neuralgia, Nervous Affections Dyspepsia, Bronchitis etc

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increased nutrition of the body in the result of the employment of Iodine The patient recovers flesh strength and color; hitherto pale, relaxed and feeble, he becomes full strong and florid

"CONSTITUTION WATER,"

THE ONLY REMEDY FOR DISEASES OF THE

BLADDER, KIDNEYS

Gravel, Dropsical Swellings,

GENITAL DEBILITY, ETC.

THE ASTONISHING SUCCESS WHICH HAS attended this invaluable medicine renders it the most valuable one ever discovered No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the debilitated and shattered system In fact, it stands unrivalled as a remedy for the permanent cure for the maladies above mentioned, and also

DIABETES IMPOTENCY,
LOSS OF MUSCULAR ENERGY,
PHYSICAL PROSTRATION,
INDIGESTION
SEMINAL WEAKNESS,
CLEET, FLUOR ALBUS,

And in every disease in any way connected with the disorder or decay of the Reproductive Functions Persons about to marry, if conscious of any weakness, should take the

CONSTITUTION WATER,

Whether broken down by excess, weak by nature or impaired by sickness the unstrung and relaxed organization is at once refraced revivified and built up Well may this celebrated medicine be called the

MEDICAL WONDER

The stooping trembling victim of depression and debility becomes a new man; the steps erect he moves with a firm step his mind which was previously sunk in gloom of an almost idiotic apathy, becomes bright and active, and he goes forth regenerated conscious of new vigor The medicine reaches the CONSTITUTION itself and restores it to its normal condition

IRRITATION OF THE NECK OF THE BLADDER,
INFLAMMATION OF THE KIDNEYS, AND
CATARRH OF THE BLADDER,
SEMINAL WEAKNESS AND BURNING OR PAINFUL URINATING
CALCULUS, GRAVEL,
BRICK DUST DEPOSIT AND MUCOUS OR MILKY DISCHARGES AFTER URINATING

For these diseases it is truly a sovereign remedy, and too much cannot be said in its praise A single dose has been known to relieve the most urgent symptoms TRY IT in these cases, and you will ever give praise to

CONSTITUTION WATER.

Males or Females.

Are you troubled with that distressing pain in the small of the back, and through your hips? CONSTITUTION WATER will relieve you like magic
